INVITED PAPERS (SPEAKERS)

Siddharth G. Adhvaryu □ Importance of Marker Chromosome Characterization in Prenatal Diagnosis	1
Rolf Becker, Malbug, M.A. Entezami, Gasiorek-Weins and R-D. Wegner □□ Early Anomaly Scan at 11-13 Weeks of pregnancy Including Nuchal Translucency Measurement	1
Jacob Canick □ First and Second Trimester Bio-chemical Markers for Prenatal Diagnosis	2
Giriraj Ratan Chandak □□ Gene Therapy of Hemo-philiac-Successes and Pitfalls	2
Roshan Colah, Ajit Gorakshakar, Anita Nadkarni, Phanagaonkar, Reema Surve and Deepika Mohanty □ Implication of Profile of Mutations in the Beta-Globin Gene for Prenatal Diagnosis of Thalassemia Syndromes in India	3
Howard Cuckle □ Optimal and Practical Down's Syndrome Screening Strategies	3
Adi Dastur □ Fetal Imaging by Color Doppler and 3D Power Doppler	4
Usha Dave □ Inborn Error of Metabolism-Post and Prenatal Diagnosis by GC/MS: CREMERE Experience	5
Deepika Deka □ Periconceptional Care	5
Prakash Gambhir □ Screening for Genetic Disorders: Indian Scenario	6
Sharad Gogate □ Genetic Screening Programme, Preventive Genetics	7
Madhulika Kabra, G. P. Das and I. C. Verma □□ Control of Sickle Cell Disease: Field Based Screening and Prenatal Diagnosis in Tribal Communities	8
Madhulika Kabra, Shivaram S. Shastri, Sadhna Arora and P. S. N. Menon □ Spectrum of Mutations in Indian Patients with Cystic Fibrosis: Implications in Prenatal Diagnosis	8
Shailesh Kore □ Ultrasound Markers of Chromosomal Anomalies	9
Kiran Kucheria □ Recent Advances in Prenatal Diagnosis of Aneuploidies	9
Ken McElreavey □ Genetics of Recurrent Spontaneous Abortions	10
Dipika Mohanty and Shrimati Shetty □ Prenatal Diagnosis of Bleeding Disorders-A Solution for Control of Such disorders in India	10
Mitali Mukherji, Uma Mittal, Komal Viridi, Samira Behl, Shweta Choudhry, Quasar Sallem, Chitra Chauhan, Sangeeta Sharma, Deepak Grover, Debasis Dash, Pramod Pal, Achal Srivastava, Satish Jain and Samir K. Brahmchari □□ Genetics of Hereditary Ataxias	11
R. Mulherkar □ Gene Therapy: A Promising Future Medicine	11
Suneel Mundle □ Clinical Relevance of CGH Micro-arrays	12
P. G. Natrajan □ Thalassemia-Prevention Through Prenatal Diagnosis	12
Firuza R. Parikh, Prochi F. Madon, Arundhati S. Athalye, Nandkishor J. Naik, Dattatray J. Naik and Suresh B. Dhumal □ Analysis of Male Facotr Infertility	13
Mahendra N. Parikh □ Medicolegal and Ethical Aspects of Prenatal Diagnosis	13

Hema Purandarey and Usha Desai □ Karyotype and FISH When to Use/What is the Real Application in Genetic Workup	14
Uppla Radhakrishna □ Genetics of Developmental Abnormalities	15
Raju R. Sahetya □ Multifetal Pregnancy and Prenatal Diagnosis	15
Renu Saxena and I. C. Verma □ Molecular Characterization, Prenatal Diagnosis and Carrier Screening of Muscular Dystrophy	16
Albert Schinzel □ Clinical Findings in Chromosome Aberrations	16
Albert Schinzel □ Genomic Imprinting and Uniparental Disomy in Human	18
Albert Schinzel □ Microdeletion Syndromes	20
Jayesh Sheth, Frenny Shethi, Pinaki Patel and Nrupesh Oza □ Prenatal Diagnosis of Lysosomal Storage Diseases	21
S. Suresh □ Birth Defects Registry-The Need, Scope and Limitations, Birth Defects Registry (BDR)-The Need	21
S. Suresh □ Prenatal Interventional Procedures	22
Chitra Thakur (Mahadik), F. Vaz and P. G. Natrajan □ Pattern of Genetic Counseling for Hemoglobinopathies - A Laboratory Scientist's Viewpoint	25
K. Thangraj, Nalini J. Gupta, K. Pavani, A. G. Reddy, M. B. Joshi, A. A. Rasalkar, S. R. Deepa, S. Subramaniam, B. N. Chakravarthi and L. Singh □ Genetic Causes of Male Infertility: Indian Scenario	26
Vincenzo Trengia □ Fetal therapy: <i>In Utero</i> Hemato-poietic Stem Cell Transplant for Beta-Thalassemia	26
Vincenzo Trengia □ Preimplantation Genetic Diagnosis: Scientific and Ethical Issues in Embryo Selection for HLA-Matching	27
Vrajesh Udani □ A Clinical View of Neurometabolic Disorders	27
Vidita Vaidya □ Adult Neurological Stem Cells: Relevance to the Clinic	28
I. C. Verma, Renu Saxena and S. Malhotra □ Molecular Methods in Prenatal Diagnosis	28
R-D. Wegner, R. Becker, M. Entezami, S. Hese and M. Stumm □ Chorionic Villi Analysis-Pitfalls by Discrepancies Between the Extraembryonic Tissue and The Fetus Proper	29
Patrick J. Willems □□ Molecular Diagnostics in Genetics: Techniques and Difficulties	29
Jon Wolstenholme □ Confined Placental Mosaicism in CVS and the Effects of Uniparental Disomy on Pregnancy Outcome	30

FREE PAPERS (ORAL PRESENTATION): PAPERS FROM THE DELEGATES

Sarita Agarwal, N. Nigam and N. Munshi □ β Thalassemia Mutations: Diagnosis to Prevention	31
Arundhati S. Athalye □ PGD Using the Fish Technique for Detection of Chromosomal Aneuploidies and Translocations	31
Maulik Bakshi and Dhiraj Mehta □ To Study Sensitivity of Erythrocytic Indices for Diagnosis of Thalassemia Minor	32

- Kundan K. Desai and Usha Dave** □ Isolation of Fetal Cells (Nucleated Erythrocytes) From Maternal Blood Non-Invasive Prenatal Approach 32
- Rema Devi and Sayee Rajangam** □ A Follow up of Prenatal Diagnosis in Down Syndrome 33
- Gazala Jabeen Fazal, Sabina Jabeen, Sujatha Jagadeesh and Suresh Seshadri** □ Chromosomal Analyses From Fetal Lymphocytes and Amniocytes 33
- Neerja Gupta and Shubha R. Phadke** □ Prenatal Diagnosis of Omphalocele Syndromes 33
- Ashutosh Halder, Ashish Fauzdar and Anand Kumar** □ Rapid Molecular Approaches for Aneuploidy Diagnosis 34
- K. Jayprakash** □ Determination of Down's Syndrome by MAFP Marker Screening 34
- Meena Lall and I. C. Verma** □ Chromosomal Aberrations and Variations in Pregnancies of Indian Women - Management and Genetic Counselling 34
- P. B. Patel, Shraddha P. Patel and Sita P. Patel** □ Genotoxic Effect of Smoking on Human Gametes and Embryos 35
- Ratna D. Puri, Sunita Bijarnia, Vandana Bhatnagar and I.C.Verma** □ Spectrum of Neuro-degenerative Disorders and Their Prenatal Diagnosis by Biochemical Assays 35
- Frenny J. Sheth, Jayesh J. Sheth and Trupti N. Patel** □ Cytogenetic Study in Couples With Repeated Fetal Loss and Its Potential for Prenatal Diagnosis 36
- Renu Singh** □ Unexpected Chromosomal Abnormalities at Prenatal Diagnosis: Counseling Dilemma 36
- Sridevi Hegde, Roshini Nayyar and Priti Venkatesh** □ Prenatal Diagnosis and Genetic Counselling-Awareness and Impact 37
- Shivakumar Subramaniyam, Sujatha Jagadeesh, Gazala Jabeen Fazal and Suresh Seshadri** □ Cytogenetic Studies in Pregnancies With Abnormal Fetal Ultrasound (USG) Examination 37
- Seema Thakur** □ Utility of Information Brochure as a Part of Pretest Counseling for Down Syndrome 38
- Priti Venkatesh, Roshini Nayyar and Mala Ssibal** □ Prenatal Diagnosis and Management of Mild Ventriculomegaly 38
- POSTERS: (POSTERS FROM THE DELEGATES)**
- R. A. Adhia, Z. M. Patel, S. Babu and A. K. D'Souza** □ Ultrasound Diagnosis of Congenital Defects 39
- Maulik Bakshi and Dhiraj Mehta** □ Study of the Extent of Awareness of Thalassemia within People 39
- D. N. Bhardwaj, S. Lalwani, R. Rautji Junior and T. D. Dogra** □ Pre Natal Diagnostic Techniques (Regulation and Prevention of Misuse) Act 1994-Salient Legal Features 39
- Sunita Bijarnia and I.C.Verma** □ Prenatal Diagnosis of Merosin Deficiency Congenital Muscular Dystrophy 40
- Suresh Dhumal** □ FISH in Prenatal Diagnosis 40
- V. Hydrabadi, Devendra Jhala, G. Avani, D. Chandel, Hyacinth Highland, M. V. Rao and G. J. Banker** □ Interstitial Deletion of 18q and Inversion 9qh: A Case Report 41
- Anil B. Jalan and Jayant Rewatkar** □ Screening for Inborn Errors of Metabolism in Critically Ill Newborn 41
- Anil B. Jalan, V. S. Patkar and Perna Desai** □ Urinary Uric Acid and Creatinine Ratio as Screening Test for Possible GAMT Deficiency 41
- Anil B. Jalan and Farzana Mulla** □ Etiological Factors in Children with Autism 42
- Anil B. Jalan, Judith Vaz and Chandralata Sharma** □ Gluten Sensitivity Screening in Children with Down's Syndrome 42
- Anil B. Jalan and Adolf Muehl** □ Tandem Mass Spectrometric Analysis for Aminoacids, Organic Acids and Fatty Acid Disorders in Critically Ill Newborns From Indian NICU 43
- Anil B. Jalan and Nandan Yardi** □ Clinical Spectrum of Glycine Encephalopathy in Indian Children 43
- Purvi M. Kakadia, Pina J. Trivedi, Manisha Brahmabhatt, Shwetel M. Rawal, Samarth S. Bhatt, Shakuntala V. Shah, Bhavna J Dave and Sonal R. Bakshi** □ Familial Supernumerary Marker Chromosome: Candidate for Prenatal Assessment? 43
- V. Lakshmi Kalpana and M. Satyanarayana** □ Cytogenetic Study in Recurrent Spontaneous Aborters 44
- Mahadev Kawle** □ FISH (Fluorescence *in Situ* Hybridization) in Products of Conception 44
- S. Kohli, R. Saxena and I. C. Verma** □ Prenatal Diagnosis of Phenylketonuria 45
- Dattatray Naik** □ A Study of Semen Analysis, Karyotyping and Y Chromosome Microdeletions in Infertile Indian Males 45
- Inusha Panigrahi, M. Kabra, D. Deka and R. Saxena** □ HPLC Diagnosis of β -thalassemia Major on Fetal Blood Samples 46
- Z. M. Patel, H. M. Gawde, A.K. D'Souza and S. Babu** □ Ascertainment of Chromosome 22q11.2 Micro Deletion in Congenital Heart Defects: FISH Study of 90 Cases 46
- Mandankini Pradhan, Faizal Khan, J. Patil, Shubha R. Phadke and S. Agarwal** □ Fertility in a Male With Trisomy 21 47
- Frenny J. Sheth, Uppala Radhakrishna, Jean-Louis Blouin, Michel A. Morris, Arnaud Gos, Dominic Mao, Jayesh J. Sheth, Asha S. Multani and Stylianos E. Antonarakis** □ Molecular, Cytogenetic and FISH Analysis of a Tandem Translocation of Chromosome 21 T(21;21) (Q22.3;Q22.3) in a Mildly-Affected Patient with Down Syndrome 47
- Frenny J. Sheth, Trupiti N. Patel, Meghna Kumar, Dominic Mao and Jayesh J. Sheth** □ Possible Interchromosomal Effect and Increased Risk of Trisomy 47
- Jayesh Sheth, Frenny Sheth, Minesh Doshi and Nrupesh Oza** □ Triple Marker Study During 2nd Trimester Followed by Cytogenetic Study 48
- Jayesh Sheth, Frenny Sheth, Minesh Doshi and Nrupesh Oza** □ MTHFR (C677T) Polymorphism and Homocysteine Metabolism in Mothers with Down Syndrome Child 48
- Lata Shewale** □ Prenatal Diagnosis/ PGD by Karyotyping/ FISH/ PCR 49
