

INDEX

A

Abiotic factors, 145
 Academic environment, 178, 181
 Accidents and injuries, 75
 Acheulian tradition, 174
 Acquired Immune Deficiency Syndrome, 64
 Adaptability, 11, 12, 16, 18
 Adaptation, 85, 86, 89, 90, 146
 Adapting organisms, 4
 Adaption to space, 30
 Adaptive systems, 16
 Afghan refugees, 204
 Afghanistan, 204
 Africa, 131, 204
 Age composition, 46
 Age structure, 46
 Ageing problems, 159
 Agricultural economy, 154
 Agricultural labourers, 48
 Agricultural production cycle, 135
 Ancient India, 177
 Animal herding, 151
 Anthropogenic forest, 88
 Anthropological, social and political analyses, 22
 Anthropology, 146
 Aquaculturists, 121
 Artisanal fisherfolk, 121
 Aryan Indo-European, 174
 Aryan invaders, 174
 Asia, 131
 Asian wet rice cultivation, 131
 Atmosphere, 241
 Atmospheric pollution, 224

B

Basal metabolic rate, 61
 Basic human needs, 105
 Bauxite mining, 224
 B-complex vitamin deficiency, 63
 Behavioral and biological adaptation, 138
 Behaviour-environment-equilibrium, 26
 Beriberi, 61
 Biobehavioral responses, 146
 Biodiversity, 5, 202, 234
 Biodiversity resources, 127
 Bio-ecology, 6
 Bio-geographical aspects, 178
 Biological adaptation, 5, 86
 Biological anthropologists, 137
 Biological anthropology, 3, 173, 175
 Biological factors, 57
 Biologically active, 165

Biomass, 37
 Biomedical ideas, 25
 Biophysical reading, 21
 Biosphere, 243
 Biospheric effects, 246
 Biotic communities, 145
 Bipedal hominids, 132
 Birth rate, 50
 Bishnois, 249
 Blindness, 63
 Bodily excreta, 131
 Body-Soul-Spirit, 26
 Brazil, 207
 Breast feeding, 58
 Bronze Age Harappans, 172
 Buddhists, 48
 Buyer types, 14

C

Cancer, 73, 160
 Cancerogenic factors, 160
 Cancers of viral origin, 160
 Cancers, 159
 Cardiovascular disease, 99
 Caribbean Islands, 203
 Carrying capacity, 6, 37, 56, 83, 86, 87, 137
 Cash crop economy, 128
 Central Asia, 152
 Central sewage disposal system, 131
 Chicken pox, 64
 Child and infant deaths, 58
 Child birth and pregnancy, 75
 Child dependency ratio, 46
 China, 131, 154
 Cholera, 75
 Christianity, 123
 Christians, 48
 Chromatid breaks, 166
 Chromatid gaps, 166
 Chromosomal aberrations, 165
 Chromosomal translocations, 168
 Chromosome breaks, 166
 Chromosome gaps, 166
 Chromosomal mutations, 159
 Chromosomal origin, 159
 Chronic starvation, 61
 Chronic under-nutrition, 208
 Cigarette smokers, 165
 Clastogenicity, 168
 Clean water, 108
 Climate change, 208
 Climatic change, 115
 Colon cancers, 160
 Colonial pacification, 123

Commensurability, 19
 Commercial farmers, 121
 Common ascrosis, 73
 Common unit, 12
 Communicable diseases, 64
 Communication facilities, 127
 Community participation, 25
 Community's health status, 57
 Complex dynamic equilibrium, 56
 Computer technology, 237
 Conomic reading, 21
 Consumer targets, 14
 Contemporary societies, 134
 Conventional energy resources, 234
 Cosmic civilization, 242
 Cough, 75
 Cro-Magnon, 172
 Cultural adaptations, 4
 Cultural anthropology, 3
 Cultural development, 86, 87
 Cultural ecology, 84
 Cultural materialism, 84
 Culture-environment relationship, 86

D

Darwinian principle, 4
 Decennial growth rate, 43
 Deficiency diseases, 61
 Deforestation, 90, 203, 204, 207, 224
 Degenerative disease, 73
 Degradation of agricultural land, 105
 Degree immunity, 144
 Deletions, 159
 Demographic history, 45
 Demographic structure, 57
 Demography, 84, 122, 139, 175
 Dengue fever, 64
 Dengue shock syndrome, 64
 Density, 45
 Dependency ratio, 46
 Depletion of resources, 105
 Depopulation, 236
 Dermatitis, 61
 Desertification, 110, 204, 206
 Destruction of forests, 105
 Developed countries, 99
 Developing countries, 35
 Developing world, 109
 Developmental pathologies, 99
 Dialectical subsumption, 29
 Diarrhoea, 58
 Dietary imbalances, 99
 Digestive disorders, 75
 Diphtheria, 58

Diseases and malnutrition, 208
 Diseases of circulatory system, 75
 Disorders of central nervous system, 75
 Displacement, 217
 Displacement of people, 204
 DNA reparation, 160
 Drug wars, 236
 Duplications, 159
 Dysentery, 58
