KEYWORDS Food Habits. Malnutrition. Poverty

ABSTRACT In this study, an attempt is made to trace out human nutrition of Ambah town. The study is based upon a sample survey of 1117 households of Ambah town. These households consisted of about fifty percent population (13485 persons) of the town (1990). Each family of these households was interviewed during the survey and thus the information of mal- and under-nutrition was traced out in the period from August, 1989 to July, 1990.
