KEYWORDS Environmental Sanitation. Sanitary Habits. Personal Hygiene

ABSTRACT The present paper is a study of environmental sanitation, sanitary habits and personal hygiene among the Baigas of Samnapur block of dindori District, Madhya Pradesh. A total of 100 households comprising of 494 persons have been studied for this purpose on a random sampling basis, by using pre tested, structured schedules, through semi-participant method. The result of study indicates that environmental sanitation through inhabitants is of an average degree, but not very much satisfactory from the hygiene point of view.
