KEYWORDS *Bhagawatgeeta*. Ancient Science. Nature and Age of the Universe. Chronology of Creation

ABSTRACT The *Geeta* is an ocean of wisdom. It reveals knowledge for all concerned. Every culture finds nurturing words for its own philosophy in the *Geeta*. The environmental knowledge presented by Lord Sri Krishna in *Geeta* can be divided into five categories such as: (1) The cosmic ecology, (2) Principles and components of ecosystem, (3) Ecological responsibility of human beings, (4) The present distorted environment compared to the then and (5) Remifification and conservation of biodiversity. The present communication is based on the awesome nature of the cosmos; the age of the universe-its creation and destruction, as well the evolution of the biological world.
