KEYWORDS Comprehension. Fluency. Motivation. Prior Knowledge. Reading Development

ABSTRACT Reading is a skill that should be properly mastered for one to be able to become a reader. For learners to become readers, they need to follow all processes that are considered critical for reading. Reading involves coming into contact with the text and be able to understand the message brought about by those texts. Therefore, this paper aims to explore key considerations that should be taken into account when learning to read in order to become a reader. The paper offers a synopsis of key considerations as far as reading with understanding is concerned. The researcher further cross-examines key considerations that should be comprehended in order to become a reader.
